PROFILE SUMMARY

Enthusiastic Python Full Stack Developer with a strong foundation in backend development using Python and Flask, and frontend technologies including HTML, CSS, JavaScript, and React. Experienced in building end-to-end web applications, RESTful APIs, and database-driven systems. Proficient in integrating frontend and backend, implementing authentication, and handling real-time features. Quick learner with strong problem-solving skills and a passion for scalable, clean, and efficient code. Seeking an entry-level role in a top MNC to contribute to impactful full stack solutions and grow as a professional.

EDUCATION

B. Tech Electronics and Communication Engineering
Bharath University

2021 - 2025
CGPA: 7.91/10

PERSONAL PROJECTS

• CUSTOMER CRUD APP [🔗](#)

- Developed a full-featured **Customer CRUD Application** enabling Create, Read, Update, and Delete operations with a structured and scalable architecture.
- Implemented core application logic and dynamic user interactions using **JavaScript (45.6%)**, ensuring smooth and responsive functionality.
- Designed a clean, responsive, and user-friendly interface using **CSS (33.2%)** and **HTML (7.3%)** for improved usability.
- Built backend functionality using **Python (13.9%)** to handle data processing, validation, and seamless integration with the frontend.

• CHATBOT APPLICATION [🔗](#)

- Developed a web-based chatbot application capable of handling real-time user interactions and basic conversational flow.
- Implemented core chatbot logic using JavaScript (73.2%), managing message processing, responses, and dynamic updates.
- Designed a clean, responsive, and intuitive chat interface using CSS (18.3%) to enhance user experience.
- Structured chatbot components and page layout using HTML (8.5%), ensuring semantic structure and cross-browser compatibility.

INTERNSHIP

Python Programming Intern

Apr 2024 – May 2024

- Completed a structured internship focused on Python programming, problem-solving, and real-world application development.
- Developed Python scripts and mini projects to strengthen core concepts, logic building, and data handling.
- Worked on tasks involving debugging, optimization, and code refactoring to improve performance and readability.
- Applied best coding practices and followed deadlines in a professional internship environment.
- Enhanced analytical thinking and programming skills through hands-on assignments and evaluations.

TECHNICAL SKILLS AND INTERESTS

Languages: Python, JavaScript, SQL

Developer Tools: HTML, CSS, Node JS, REST API

Frameworks: React.js, Django

Cloud/Databases: MYSQL

Soft Skills: Communication, Teamwork, Problem-Solving, Adaptability, Time Management, Critical Thinking

Other Skills: GitHub, Git, Microsoft Office

CERTIFICATIONS

- [NPTEL ELITE](#) certificate for Introduction to Internet of Things
- [Python Development](#) Training Program certificate
- [Forage](#) Developer Job Simulation
- [HACKER RANK](#) Python (Basic) certificate
